Re: FY23 Cultural Sector Recovery Grants for Individuals

Staff (particularly the Artist Team) has reviewed and selected a list of 4,000 artists, culture bearers, and cultural workers to receive unrestricted, \$5,000 grants as part of the one-time Cultural Sector Recovery Grants for Individuals program as previously approved by the Council in May and August of 2022.

Once awarded, the grants will represent the Commonwealth's largest-ever investment in artists and creatives in the cultural sector.

With this memo, Mass Cultural Council staff will share some statistics on the grantees/applicant pool, as well as submit the program for your final approval.

PROGRAM BACKGROUND

Under the Commonwealth's Act Relative to Immediate COVID-19 Recovery Needs (Chapter 102 of the Acts of 2021) enacted last December 2021, Mass Cultural Council in Line item 1599-2043 was provided \$60,147,000 (referred to as "Pandemic Relief Funds") to:

"... administer a grant program for the purposes of assisting cultural organizations and artists recover from the 2019 novel coronavirus pandemic and operate more efficiently..."

In Spring/Summer '22, Mass Cultural Council staff developed two pandemic relief programs, one for Organizations and one for Individuals.

We kept three key points in mind when designing the Cultural Sector Recovery Grants for Individuals:

- Unlike other pandemic relief funding that focused on loss, this program focuses on recovery.
- The program assumes that all working artists, teaching artists, and cultural workers, in every creative discipline, experienced loss during the pandemic.
- The funding is not intended to compensate for that loss. Rather it provides broad funding help eligible individuals, and therefore the sector, recover by providing unrestricted support.

The program has a broad and inclusive eligibility, accepting applications from artists/cultural bearers, teaching artists/scientists/humanists, and independent cultural workers. It was designed to benefit a wide swath of the cultural sector, making special efforts to reach new grantees or those that have, historically, been underserved by grant programs.

To address the legislative mandate that the Council “shall consider racial, geographic and programmatic diversity and equity within the cultural sector,” the program guidelines include Funding Priorities. The program prioritizes applications to: 1. people who identify as BIPOC/People of the Global Majority; 2. people who identify as Deaf or as having a disability; 3. people who live in communities that are under the state’s median income and educational attainment levels; and 4. new/non-recent grantees. To ensure geographic fairness, the program distributes grants to six regions of the Commonwealth (as set forth in the published guidelines) in proportion with that region’s percentage of applications. By keeping the eligibility broad and committing an intensive, Agency-wide recruitment effort, the range of applicants and their creative disciplines is far-reaching and diverse.

The initial plan was to commit \$15 million, or 3,000 individual \$5,000 grants, to the Cultural Sector Recovery for Individuals program. A revised plan commits an additional \$5 million to the Individuals grants, for a total of 4,000 grants of \$5,000.

APPLICATIONS

We began accepting Cultural Sector Recovery for Individuals applications on August 15, 2023. To recruit the widest range of applications possible, we promoted the opportunity through social media (including Instagram Live events in English and Spanish), two live webinars and informational YouTube videos in English and Spanish, in-person events in East Boston and Holyoke, media placements, guest events with organizational partners including the Small Business Administration and the Springfield Trust Transfer Project, and countless email, in-person, phone, and other interpersonal communications. Both the Individuals and Organizations programs were promoted actively by Michael J. Bobbitt through a range of meetings, speaking engagements, and appearances.

The application process was designed to be simple. Some applicants reported needing less than 10 minutes to apply.

The application deadline was November 1, 2022. Cultural Sector Recovery Grants for Individuals received **7,593** applications.

REVIEW PROCESS

To select the grantees, the program uses geographic distribution, Funding Priorities, and a randomized, lottery-style process.

Geographic Distribution: First, grants are distributed to six geographic regions (Central, Greater Boston, Metrowest, Northeast, Southeast, Western) in the same proportion we received applications from each region.

Funding Prioritization: Within those regions, each applicant was weighted based on whether they meet the program's four Funding Priorities:

- First-time applicants or applicants who have not received funding from Mass Cultural Council in the last six fiscal years.

- Applicants who have been historically under-funded by similar programs who are:
 - People of the global majority — Black, Indigenous, People of Color, Latinx, Asian, Native American, Pacific Islander, and all other ethnicities of color.
 - People who identify as Deaf or as having a disability.
- Applicants who are located in cities and towns that are below the state's median household income and below statewide educational attainment (the percentage of adults who have attained at least a bachelor's degree). This includes but is not limited to places designated as Gateway Cities. A full list of these under-resourced communities is available.

Randomized Score: Once Geographic Distribution and Funding Prioritization are applied, applications are assigned a randomized score to resolve any tied scores among potential grantees.

Applicants in each region will receive a grant if they: 1. Are determined to be eligible, and 2. Receive a Funding Prioritization/randomized score that ranks above the grant "cut-off" line in each region (determined by the availability of funding for the region as described above).

Since the geographic distribution, Funding Priorities, and randomized score creates the application "rankings," the main role of the Artist Team is to ensure potential grantees are eligible. Consequently, the Artist Team has spent most of November, December, and the early part of January checking applications for eligibility. Key questions in determining eligibility include: Does the applicant live in Massachusetts? Is the applicant's work in the cultural sector (rather than a related sector, such as health or beauty)? Is the applicant's work independent? Did the applicant follow published guidelines/submit required materials?

We are seeking approval by the Council of the above. Pending approval by the Council, we expect to announce the grant results by the end of January/beginning of February 2023 and begin the process of sending state contracts and grant payments to the 4,000 grantees.

If this program as described is above, please note that if, during the contracting process, staff subsequently discovers that a selected grantee is ineligible, staff will move to the next eligible recipient in such ineligible grantee's region and give the next eligible grantee the award as replacement. Additionally, should any additional funds become available, we propose using the review process outlined above to make grants to additional eligible applicants to expend those funds.

GRANTEES

Please find the separately attached list of 4,000 recommended grantees. **Please note that the numbers beside each name on the attachment are for ease of reference only and do not reflect a ranking system.** The grants are geographically distributed to six regions, based on the percentage of applications received in each region, as demonstrated in this chart.

| Region | Applications | % of pool | # of Awards |
|----------------|--------------|-------------|--------------|
| Central | 669 | 9% | 353 |
| Greater Boston | 3,021 | 40% | 1,592 |
| Metrowest | 344 | 5% | 181 |
| Northeast | 960 | 13% | 506 |
| Southeast | 1,107 | 15% | 583 |
| Western | 1,491 | 20% | 785 |
| | 7,589 | 100% | 4,000 |

Statistics for Grantees, followed by stats for applicants as a whole.

4,000 Grants Total

Priority Score Stats for approved grants

BIPOC: 2,377 or 59%

Deaf/Disability: 1,071 or 27%

Priority Community: 2,187 or 55%

No funding in past 6 years: 3,919 or 98%

Grantee by Application/funding history status

Past Grantee: 83 or 2%

Past Applicant: 747 or 19%

New Applicant: 3,170 or 79%

7,593 Applications total

Priority Score points for all applications

BIPOC: 2,778 or 37%

Deaf/Disability: 1,207 or 16%

Priority Community: 2,773 or 37%

No funding in past 6 years: 6,977 or 92%

Applicant by Application/funding history status

Past Grantee: 712 or 9%

Past Applicant: 1,472 or 19%

New Applicant: 5,409 or 71%
